BENEFITS

Protection for the
treatment of cancer and
29 specified diseases

Cancer Insurance

Receiving a cancer diagnosis can be one of life's most frightening events. Unfortunately, statistics show you probably know someone who has been in this situation.

With Cancer insurance from Allstate Benefits, you can rest a little easier. Our coverage pays you a cash benefit to help with the costs associated with treatments, to pay for daily living expenses, and more importantly, to empower you to seek the care you need.

Here's How It Works

You choose the coverage that's right for you and your family. Our Cancer insurance pays cash benefits for cancer and 29 specified diseases to help with the cost of treatments and expenses as they happen. Benefits are paid directly to you unless otherwise assigned. With the cash benefits you can receive from this coverage, you may not need to use the funds from your Health Savings Account (HSA) for cancer or specified disease treatments and expenses.

Meeting Your Needs

- Guaranteed Issue, meaning no medical questions to answer at initial enrollment
- Includes coverage for cancer and 29 specified diseases
- Benefits are paid directly to you unless otherwise assigned
- Coverage available for dependents
- Waiver of premium after 90 days of disability due to cancer for as long as your disability lasts (employee only)
- Coverage may be continued; refer to your certificate for details
- Additional benefits may be added to enhance your coverage

With Allstate Benefits, you can protect your finances if faced with an unexpected cancer or specified disease diagnosis. **Are you in Good Hands? You can be.**

Meet TJ

TJ is like anyone else who has been diagnosed with cancer. He is concerned about his wife and how she will cope with his disease and its treatment. Most importantly, he worries about how he will pay for his treatment.

Here is what weighs heavily on his mind:

- Major medical only pays a portion of the expenses associated with my treatment
- I have copays I am responsible for until I meet my deductible
- If I am not working due to treatments, I must cover my bills, rent/mortgage, groceries and other daily expenses
- If the right treatment is not available locally, I will have to travel to get the treatment I need

Here's how TJ's story of diagnosis and treatment turned into a happy ending, because he had supplemental Cancer Insurance to help with expenses.

CHOOSE

TJ chooses benefits to help protect himself and his wife if diagnosed with cancer or a specified disease

USE

TJ undergoes his annual wellness test and is diagnosed for the first time with prostate cancer. His doctor reviews the results with him and recommends pre-op testing and surgery.

Here's TJ's treatment path:

- TJ travels to a specialized hospital 400 miles from where he lives and undergoes pre-op testing
- He is admitted to the hospital for laparoscopic prostate cancer surgery
- TJ undergoes surgery and spends several hours in the recovery waiting room
- He is transferred to his room where he is visited by his doctor during a 2-day hospital stay
- TJ is released under doctor required treatment and care during a 2-month recovery period

TJ continues to fight his cancer and follow his doctor recommended treatments.
