

# You depend on your eyes every day. Treat them right.

## Vision Insurance helps everyone in the family get quality eye care

Regular eye care is essential, even if you have perfect eyesight. If you use digital devices, it can create stress on eyes that impairs vision.<sup>1</sup> And eye exams can detect more than failing eyesight; they can help detect major health problems such as glaucoma, diabetes, blood pressure, and strokes.<sup>2</sup> Medical insurance doesn't typically cover eye care, but the right vision plan can help reduce the cost of eye exams while making frames, lenses, and other services much more affordable.

### Who is it for?

- Anyone who wants to save on vision care at quality providers
- People who use digital devices every day and want access to regular vision care
- Parents who want to ensure their children get regular vision care, and if needed, corrective lenses

### What does it cover?

- Pays for services and eyesight correction that medical insurance plans don't typically cover
- Provides meaningful discounts on new eyeglasses, contact lenses, and corrective surgery like Lasik
- Covers preventive care like routine eye wellness exams and retinal screenings

### Why should I consider it?

- A strong nationwide network of providers, including retail locations such as Costco, Walmart, and Visionworks
- Affordable premiums and convenient payroll deductions
- Quick and easy claim payments

### Did you know?

**60%** of adults in the US report experiencing some form of eye strain that may require medical attention.<sup>3</sup>

### It's easy to find an in-network provider

To find vision providers or retail locations, go to [guardianlife.com](https://guardianlife.com) or download the Guardian 'Find a Provider' app to your mobile device.

### Here's an example of how it works

David feels eye strain, and notices that he can't see certain things as clearly as he once did. He goes in for an eye exam and is diagnosed with myopia, which means he needs glasses. His vision plan helped him find a quality eye doctor and pay for the exam, and let him buy new glasses at a discount.
