Fully Managed Identity Theft Recovery Provided by Safe ID Trust as a Benefit For Your Employees or Members, and Their Families

## IDENTITY THEFT CANNOT BE PREVENTED. ARE YOU PREPARED?

IDENTITY THEFT IS CURRENTLY IN THE TOP SPOT OF REPORTED CRIMES.

NUMBER OF REPORTED IDENTITY FRAUD VICTIMS IN 2013.

OF VICTIMS NOTICE FRAUDULENT CHARGES BEFORE FINANCIAL INSTITUTIONS.

CONFIDENTIAL RECORDS THAT HAVE BEEN LOST, STOLEN, OR EXPOSED.

AVERAGE FINANCIAL LOSS PER IDENTITY THEFT

AVERAGE NUMBER OF HOURS SPENT ON RESTORATION.

## WHEN YOUR IDENTITY HAS BEEN COMPROMISED, SAFE ID TRUST HAS YOUR BACK.

### The Reality of Identity Theft

An identity is reported stolen every 2 seconds. Breached records and hacks as well as lack of proper protection, and the inability to prevent identity theft are to blame, and hundreds of millions of records have been breached. Being a part of a breach increases an individual's odds of being a victim of identity theft to 1 in 3. While it comes in many forms, some of the most horrendous identity thefts include tax fraud, medical fraud, and legal ramifications of crimes committed in someone's name. 1 in 10 children will have their identity stolen. Identity Theft affects entire families.

### What This Means for Employees

Data breaches bring a very real and costly problem to your business. Everyone is at a high risk of Identity Theft and it is a great threat to the future of your employees' wealth building ability, reputation, time, and resources. Also important to you as an employer is the cost to you and your organization. Individuals can spend hundreds of hours in restoring their identity to pre-fraud status. For employers, this is lost production. Unfortunately, one out of four people who do become a victim of identity theft are never fully restored to pre-theft status, making it an on-going issue.

### Safe ID Trust's Commitment

Safe ID Trust is committed to the employee benefit option because we understand the ramifications on business. We have the credibility, the contacts, resources, and experience to ensure each and every one of our members are recovered to 100% pre-theft status with the highest efficiency.

### What is Identity Theft?

Identity Thefts include more than credit card fraud. Tax fraud, medical fraud, criminal fraud, and the threat to children are all growing each and every year. The hard fact is that identities cannot be protected from being stolen. Recovery and restoration are the solutions when someone becomes a victim.

### The Importance of a Fully Managed Identity Restoration Service

The single greatest value an identity theft recovery program can provide is a fully managed identity restoration service. In the event of identity theft, reimbursement coverage, no matter how impressive-sounding the amount, is of marginal value when victims really need a solution that removes the burden of identity restoration and protecting an individual's reputation. Guided recovery services seldom go far beyond credit monitoring and credit freezes - services and information that are publicly available at no cost. Identity theft victims who actually avail themselves of these services will be disappointed at how little help is provided and how much time and stress is involved in conducting their own identity restoration. These victims are more likely to file expense claims, and they are unlikely to renew their policies or to feel loyal or grateful to the carrier or organization providing them.

### Why Safe ID Trust

Our mission is simple. Safe ID Trust is committed to providing the highest quality of identity theft membership services available at a price every family can afford. Safe ID Trust understands the very real risk of identity theft and has the resources, expertise, and experience to follow through, providing a 100% service guarantee. Safe ID Trust offers a comprehensive product and service. We are fully managed and hands off for the member identity theft recovery.

AMERICANS

SAFE ID TRUST IS A COMPREHENSIVE, GOVERNMENT COMPLIANT, AFFORDABLE, AND FULLY MANAGED IDENTITY THEFT RECOVERY SERVICE FOR AMERICAN FAMILIES. SAFE ID TRUST IS BUILT ON OUR COMMITMENT TO PROVIDE OUR MEMBERS WITH THE VERY BEST AND A 100% SERVICE GUARANTEE.

WHILE MANY COMPANIES OFFER A "BREAKAGE MODEL" OF SERVICE, SAFE ID TRUST OFFERS SUPERIORITY IN THE REAL ANSWER TO THE IDENTITY THEFT EPIDEMIC -- FULLY MANAGED RECOVERY.

OFFERING ONLY "PROTECTION," AND "ASSISTED" RECOVERY OR SIMILAR LEAVES A FALSE SENSE OF SECURITY. THE FEDERAL TRADE COMMISSION HAS MADE IT CLEAR THAT IDENTITIES CAN NOT BE PROTECTED FROM BEING STOLEN.

SAFE ID TRUST OFFERS GENUINE PEACE OF MIND BY OFFERING FULLY MANAGED IDENTITY THEFT RECOVERY FOR THE ENTIRE FAMILY AT A PRICE EVERYONE CAN AFFORD.

100% RECOVERY & RESTORATION IS WHAT WE DO. OUR ADDITIONAL SERVICES ARE A PERK OF DOING GOOD BUSINESS WITH BEST PRACTICE.

# DETAILS OF SERVICES

## \*Safe ID Trust Recovery & Restoration Service Overview

As a member of Safe ID Trust, you receive our full service restoration services. Safe ID Trust's restoration services are engineered to restore a member's identity to a pre-compromise or pre-victim status. Our full service restoration services require limited work on the member's part through the utilization of a limited power of attorney document. Safe ID Trust has a dedicated team of certified Identity Theft Restoration Specialists who are FCRA/FACTA and CITRMS certified to perform the resolution of the member's identity on their behalf.

Our team of certified Identity Theft Restoration Specialists work on your behalf to restore your identity and good name in whatever area or areas it has been compromised to a pre-victim status. The first step is to know the warnings signs if you are a victim and what information could be used for if it has been stolen.

### Warning Signs:

- You receive bills from accounts you didn't open.
- You see unauthorized charges on your accounts -- credit card, phone, bank, etc.
- Collection agencies are calling you about debts you're unaware of.
- You are missing checks from your checkbook.
- Bills and statements are not arriving in the mail at the expected time.
- Your credit report has unknown entries -- accounts, addresses, employment history, etc.
- You get turned down for a loan or job based on false entries in your credit report.
- You receive credit cards you didn't apply for.
- Your social security earnings and benefit statement shows you made more than you expected for one or more years.
- The IRS contacts you about income you have not reported.
- Debt collectors are contacting you about debts that you are unaware of.
- Replacement credit card is not received before your current card expires.

### ID thieves can use your stolen information to:

- Open credit card accounts - the most frequent abuse.
- Open phone and utilities accounts.
- Get a bank loan or checking account.
- File a tax return to get a refund.
- Buy a car or other credit approved items.
- Claim benefits.
- Work with children.
- Receive medical treatments and medications under your identity.
- Receive traffic citations, warrants, and even be arrested under your identity.

### Lowering Your Risk:

- Obtain and review credit reports every three months.
- Maintain a 90 day fraud alert with each of the credit bureaus as added security against the opening of new accounts under your personal information.
- Stop receiving pre-approved credit card offers by "opting out" at [www.optoutprescreen.com](http://www.optoutprescreen.com)
- Place passwords on all financial bank accounts, credit cards, and utility accounts.
- Obtain a locking mailbox or be sure to remove mail from box daily.
- While on the internet do not click on unidentified links in emails and websites.
- Use an anti-virus software on personal computer and laptops to prevent hackers from accessing your hard drive.
- Give your SSN only when absolutely necessary. Sometimes businesses want your SSN for simple record keeping. Ask to use other types of identifiers when possible.
- Do not put your SSN on your checks and don't let a merchant do it either.
- Do not carry your social security card in your purse or wallet; leave it in a secure place.
- Ask businesses not to print your SSN on documents sent through the mail.
- Do not list sensitive information on social networking sites like MySpace, Facebook, or LinkedIn.
- Shred all sensitive information using a cross cutting shredder.

Although you can take the necessary precautions listed above to help prevent identity theft, the reality is you can never entirely prevent identity theft. With the thousands of data breaches reported in the news daily of the most common businesses we shop at, it is virtually impossible to prevent your identity from being stolen! That is why we offer our complete hands-off recovery service, so that in the event your identity is stolen we are here to restore your good name and give your family peace of mind!

# DETAILS OF SERVICES

## Safe ID Trust Lost Wallet Services

As a member of Safe ID Trust, if you were to ever lose or have your wallet/purse stolen, all you would have to do is make one phone call to the Safe ID Member Services Line. One of the Safe ID Specialists will perform the following actions:

### Actions Taken

The Safe ID Specialist will have a one-on-one conversation with you to obtain what information was in your lost/stolen wallet/purse. If necessary the Safe ID Specialist will pull a credit report to use as a reference for contacting the creditors listed in the lost/stolen wallet/purse. We put the list of items in order of priority. Financial information is contacted first so that we can prevent fraudulent charges from occurring.

### Credit Cards

Inquire from you if it was a specific type of credit card (personal/business, debit/credit) as there are several different departments within the bank that handle specific cards. Next, we will contact all the creditors. These calls must be made in the form of a conference call with you on the line. (For security and authentication purposes) We review any recent transactions, dispute fraudulent charges (if any), replace the card.

### Banking/Checks

If there were checks or a checkbook lost or stolen, we will have the checking/savings account closed and a new account number opened along with new checks ordered.

### Drivers License

Depending on the state, you may be able to renew your lost license online and we will help walk you through that process. If your state does not provide online renewals then the Safe ID Specialist will look up the address and phone number for you online to provide you with this information. An email can also be sent to you containing the information needed to replace.

We will also suggest that you file a police report so that authorities know that your drivers' license was lost/stolen. If pulled over, authorities will have record of why you cannot show proof of identity.

When you visit the state Department of Motor Vehicles office, you will need to take a minimum of two forms of identification with you (such as a birth certificate and another government issued proof of identification), and proof of social security number just as if you were applying for a license for the first time. Please note, you will also be required to pay a fee to replace your drivers' license.

### Social Security Cards

If you have had your social security card lost/stolen, the Safe ID Specialist can email or fax you the necessary SS-5 form that you must fill out and return to the Social Security Administration. We can provide the location of the closest SS Administration office. Unfortunately we cannot replace or report a missing Social Security card over the phone. This must be taken care of in person due to the identification being government issued.

### Passport

If you have had your passport in your lost/stolen wallet/purse, you will need to fill out two forms. There is a Statement of Lost/Stolen Passport Form DS-64 that needs to be completed by the member. (We can provide this form to you.)

The DS-64 form will invalidate their passport, therefore if it is ever recovered they will have to turn it in and it cannot be used for travel. You will also have to submit a new application using Form DS-11 to get a replacement passport issued and pay the applicable fees for processing. You must submit the Form DS-11 and the additional required documentation in person at an Acceptance Facility or Passport Agency. Form DS-11 may not be submitted by mail. The Safe ID Specialist will be able to answer all your questions and walk you through the entire process.

### Health & Auto Insurance Cards/Membership Cards

If you had auto insurance cards, medical insurance cards, or other types of membership cards stolen, the Safe ID Specialist will assist with contacting these institutions as well to help you get replacement membership cards. If the membership cards have your picture on them, you may need to go back to the place where they received the original card to have another picture taken.

### Medicare/Medicaid

Depending on the members' preference the Safe ID Specialist can replace a Medicare/Medicaid card online or over the phone.

### Professional Licenses

If the member has lost a copy of their professional license, the Safe ID Specialist will contact the agency that issued the license and let them know that you have lost it. They will either be able to send you a new one or they will advise you of what needs to be done in order to get it replaced.

### Diplomas & Certificates

The Safe ID Specialist will contact the institution that issued the diploma/certificate. We will advise the institution of the lost/stolen certificate/diploma and provide an estimated time of arrival the document will arrive.

There are no limitations to what the Safe ID Specialists can help you with during the recovery process of your lost/stolen wallet/purse. Safe ID Trust will do its best to provide you with the information that you need to replace any items that were lost/stolen.

# DETAILS OF SERVICES

## Safe ID Detective

The Safe ID Detective service is engineered to provide information services for non-credit based Personal Identifiable Information (PII). It does not involve credit bureau data and provides services on information not tracked by credit bureaus.

Safe ID Detective is Safe ID Trust's proprietary technology which monitors global black-market websites, IRC channels, chat rooms, and social feeds for our Member's Personally Identifiable Information (PII), such as Name, Date of Birth, Bank Account information, Credit Card numbers, Debit Card numbers, email addresses and passwords, telephone numbers, and medical id numbers.

Safe ID Detective continuously monitors thousands of websites and millions of data points, alerting our members if their personal information is found being bought, sold, or traded online. Using a variety of data gathering techniques, such as chat room monitoring, spidering/crawler/scraping capabilities and forum extraction, Safe ID Detective locates compromised data on the following:

More than 600,000 web pages a day based on over 10,000 optimized search engine queries

More than 10,000 forums and websites

At least 50,000 malware samples per day

More than 500 IRC channels

More than 250 Twitter feeds

P2P Sources: 114 servers

Hidden/anonymous web services: 80

Botnets monitored: more than 100 C&C servers, 18,000 compromised hosts

More than 320 torrent sources

## Monitored Member Information:

Monitored information is unique elements of PII which are matched against found data in the Safe ID Detective database. Monitored information includes: Email Addresses, Telephone Numbers, Medical ID Numbers, Credit/Debit Card Numbers, Bank Account Numbers, and Retail Credit Cards.

When an exact match for the monitored information is found, the Member is alerted with an email notification alerting them to the found PII. The detail of the alert can be accessed through their portal for more information.

## Additional Data Elements Captured Per Event:

Captured elements are not monitored elements, but can be returned with the instance of compromised monitored information. If the monitored information is found compromised, Safe ID Detective searches for possible compromised relative information and captures these elements. The following is a list of captured elements: Name, Driver's License Number, Cardholder Address, Street Address, Driver's License State, PayPal User ID, City, PayPal Password, State, Postal Code, Online User ID, EBay User ID, Country, Online User ID Password, EBay Password, Phone, Credit/Debit Card Type, Name of Bank, Alternate Phone, Name on Card, Bank Phone Number, Last 4 of SSN, Card Verification Number, Bank Login User ID, Mother's Maiden Name, Card PIN, Bank Login Password, Date of Birth, Card Expiration Date, Bank PIN, Day of Birth, Month of Birth, Year of Birth, Card Expiration Month, Card Expiration Year, and Medical Provider. - See more at: <http://safeidtrust.com/safeiddetective/?mitem=27067#sthash.bbaGgpsK.dpuf>

## \*\*Identity Theft Insurance

Safe ID Trust's Identity Theft Insurance will reimburse our members for expenses associated with restoring their identity should they become a victim of identity theft. If a member's identity is compromised (excluding New York residents), Safe ID Trust provides coverage for up to USD\$1,000,000, with no deductible, from an A.M. Best "A-rated" carrier, subject to the terms, limits and/or exclusions of the policy. A summary of the policy coverage, definitions and limits follows, all of which is subject to the specific terms of the policy (which may be amended from time to time).

## Coverage for Members domiciled within the United States:

The insurance policy covers the costs to restore identity and/or legal defense fees and expenses up to USD \$1,000,000 per Stolen Identity Event (as defined in the policy) - See more at: <http://safeidtrust.com/idtheftinsurance/?mitem=27068#sthash.CgXsN53e.dpuf>, Card Expiration Year, and Medical Provider. - See more at: <http://safeidtrust.com/safeiddetective/?mitem=27067#sthash.bbaGgpsK.dpuf>

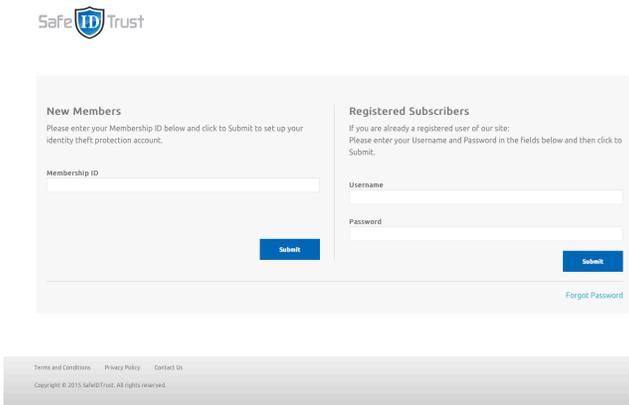

# Safe ID Trust Membership Portal

## EXCLUSIVE MEMBER MONITORING AND INFORMATION PORTAL

An annual family membership grants members access to Safe ID Trust's FREE membership portal. The portal allows members enter additional information for monitoring, as well as access all of their membership tools. Optional additions for monitoring include credit/debit card numbers, medical ID numbers, bank account information, email addresses, and phone numbers.
