Accident coverage can protect your whole family

A voluntary accident plan offers coverage for accidental injuries and accidental death in addition to your primary medical insurance. It's also available to your spouse and dependent children - a plan that can protect your whole family.

Why do I need accident coverage?

Here are a few facts to consider from the National Center for Health Statistics*:

- Sports activities and leisure activities together accounted for nearly 40 percent of medically-attended episodes of injury, and the most common place of injury was in or around the home.
- Falls are the leading external cause of non-fatal injury.
- Injuries due to motor vehicle traffic accidents, overexertion and strenuous movements, and striking against or being struck accidentally by objects also make up a large portion of injuries.

The *home* was the most frequently reported place of injury with 32% of injuries occurring *inside the home*, and another 18% *outside the home*.

- *National Health Interview Survey, 2011, Summary Health Statistics for the U.S. Population*
